| June 3, 2017                             | High School Graduation   |

### **Follow your teen's school information/grades online!**

All parents in our district have been assigned usernames and passwords to access their teen's electronic cumulative folders through the District Information System.

To obtain your username and password, please contact school Academic Center in person. With access you will be able to access your account, consolidating your accounts, and navigating your teen's electronic cumulative folder. Access to your teen's record includes: test scores, attendance, report card and lunch balance. We highly encourage you to log and select options that work for you. These options include receiving report cards, food service balance, and student billing by email or a text.

Thank you for your partnership in your student's learning. 525-3073
