Policy on Middle School Student Eligibility

Parents/guardians of middle school students must read and acknowledge (by signing below) the following information concerning eligibility to participate in extracurricular activities (athletics, music, drama, clubs, etc.). **Students must also sign.**

A STUDENT MAY LOSE EXTRACURRICULAR ELIGIBILITY UPON TRANSFERRING. PLEASE CAREFULLY NOTE THE FOLLOWING: (All IESA By-Laws and policies shall be binding)

1. In order to be eligible to participate in extracurricular activities, a student must reside with his/her parents or legal guardians at an address in the attendance boundary of the middle school where he/she is enrolled. If a student is granted a transfer outside his/her middle school attendance boundary, he/she will become ineligible to participate in all extracurricular activities for one calendar year (365 days) from the date the transfer is granted unless the Superintendent of Schools grants approval **AND** the student-athlete satisfies the IESA requirements for eligibility.
2. 6th grade students who choose to attend a school of choice shall be considered as living in the geographic territory of the magnet school or the school housing the magnet program for the remainder of their middle school enrollment and shall be subject to these provisions.
3. A student who enrolls and attends a middle school as a sixth grader on a transfer outside his/her geographic attendance area as defined by District 186 shall lose athletic eligibility for one calendar year from the date of approval if that student:
 - a. seeks the revocation of the original transfer;
 - b. seeks a transfer to a different school other than where initial enrollment occurred; or
 - c. has his/her transfer revoked
4. The following situations relative to the residency of students shall exempt them from the loss of eligibility when a transfer is granted:
 - a. If the legal residency of an athlete's parents/guardians changes to be outside the school boundaries for the middle school the student attends, the student shall retain eligibility at the school where they are enrolled or the school located within their attendance boundary.
 - b. If the parents/guardians of a student who is enrolled in a middle school on the basis of a transfer granted by the Superintendent move to a different residence other than the one from which the transfer was granted, they must choose one of two options. They may enroll in the middle school defined by the attendance boundaries of the district for their new address or they may seek to have a transfer granted as a renewal by the Superintendent of Schools from their new address. In making decisions about transfer renewal requests from new addresses, the superintendent shall apply the provisions of available space and other district standards governing transfers.
5. If a student's legal residence is changed due to a court-certified or court-ordered change in custody, or if other substantive issues arise due to a change in the custody of a student, the student may retain athletic eligibility pending approval of appeal to the Superintendent of Schools.
