## Mr. Miller's Memo :

Graham Families,

It's May and we are entering into the home stretch for the end of the year. I want to encourage you to help your students understand that we still have a lot of learning to do for the rest of the year. Over the course of the next month, we will be finishing up the last units in reading, writing and math. We will also be doing our end of the year assessments. We are all excited to see how much your students have grown this school year.

As we look ahead to next school year. Please remember that registration will happen on May 17<sup>th</sup>. If you have any questions about this process, please contact the school office.

This summer we are encouraging you to help your student continue with their learning. Most of you are familiar with XtraMath and SplashMath. These websites can be used during the summer on a daily basis. Both applications work on a computer, tablet, or phone. In the next couple weeks your student's teacher will be sharing with you the login for a website named Open eBooks. This website will allow your student to access hundreds of eBooks for free. Students will also be sent home hard copy books to read over the summer. We hope that you will use these resources to help your student grow as a reader.

Thanks,  
Steve Miller
