

Wisdom

Wisdom is the result of learning new information through knowledge, experience or understanding. Wisdom is also the ability to apply knowledge to new situations.

Example

Remembering and following school rules, making good choices, and working hard on schoolwork shows others we are wise.

Appreciating *Differences*

Everyone is different. Not everyone looks alike, talks alike, or acts alike. We can appreciate differences by respecting the thoughts, ideas and feeling of others.

Example

Spend time talking to other students to learn and appreciate their wonderful ideas.

Random Acts of *Kindness*

A random act of kindness is a nice thing done by a kind person to either help or cheer up someone else, for no reason other than to make that person happy.

Example

Think of kind things you can do for others. They will be happy and you will feel good too.
