

## Baker's Bunch Business

September 3-6, 2019

Dates to Remember

September 6- Grandparent's Day

September 19- Talk like a Pirate Day

## A Note from the Teacher

We are working on having great attendance at Enos this year. It is very important to have all students attending every day and to be on time. Please make sure your student is getting at least 8-10 hours of uninterrupted sleep each night. This should also help with students showing up very tired and cranky. Students who are tired and sleeping on their desks are missing vital instructional time. We have a great deal of material to cover this year and I want to make sure we are attacking it with gusto!

## What We're

### Language Arts

Students are learning the basics of writing about small moments in their lives to produce nonfiction narratives. We will also be working on grammar and mechanics of writing as we go.

### Math

Students are learning to manipulate numbers and use manipulatives with our curriculum. They are doing a great job of learning all about their numbers and what they mean.

### Social Skills

Students are learning about a growth mindset. We are working on being kind to our classmates and ignoring when they are having a hard time.
