

Do you Symbaloo? We do!

Ever have the need to provide multiple web resources all in one, organized place? Symbaloo is your answer. Symbaloo allows you to create a visual webmix of “tiles” in which links to web resources can be grouped and/or color-coded by topic or educational need. Never again will you have to bookmark websites in a bookmark bar or menu for your students. Additionally, you can create multiple, separate webmixes to accommodate different groups of students or classes. Check out some ways [Symbaloo can be used in your classroom](#). Symbaloo is free and accessible via laptops or any smart, mobile device. You can also check out this Symbaloo [“how to”](#) guide. We’ve created a [Symbaloo webmix](#) for you, too! In it, you’ll spy our favorite tech tools and resources.
