Sunday, April 19, 2020

Dear Families and Students,

We survived our first week of E-Learning! I've made a few minor changes on some things. I am only going to send on one week of lesson plans instead of two like I originally intended. I think this will be easier to make adjustments as we figure out how E-Learning best fits the needs of our class.

I want to point out that there are three main areas where you can access information about our E-Learning plans: our class website (<https://www.sps186.org/teachers/nlangen/?p=111109&b=3>), ClassDojo, and SeeSaw. Information that applies to the entire class is posted on all three. Information that applies to individual students (such as usernames and passwords) is posted on their Dojo portfolio.

I am trying something different with the Zoom meetings this week. The schedule will be: Tuesday 5:00-5:30, Wednesday 11:00-11:30, and Thursday 2:00-2:30. **The ID number is 930 897 998 and the password is 12345.** Please have your child be on at least one of the zoom meetings to check in.

We've probably all heard by now that school is closed for the remainder of the 2019-2020 school year. This does NOT mean that the school year is over. It is still very important that your child continues to do their school work. School just looks different now.

Remember the assignments do not have to be done all at once unless you have a chunk of time and you and your child want to. I also know that for some families it works best to do things in the morning and for some the evening is better. You are able to send me things on SeeSaw any time of the day. Keep in mind many of these assignments will need your help and/or supervision so do what is best for your families schedule.

The Illinois State Board of Education has told school districts what is required and our district has laid out a plan for each grade level. You can find more details on our district page (<https://www.sps186.org/coronavirus/>). Kindergarten should be spending between 30-90 minutes of learning and work each day. Teachers have now been instructed to take grades and account for which students are completing work. I have started a checklist to keep track of all my students and their work submitted to me. I have started checking in with families to see how I can assist them and what else I can do to help you in this process, and I will continue to reach out to you.

Again, please don't hesitate to call, text, or email me with any questions and assistance on any of the lesson plans.
