# Log Your Reading This Summer At Read 5!
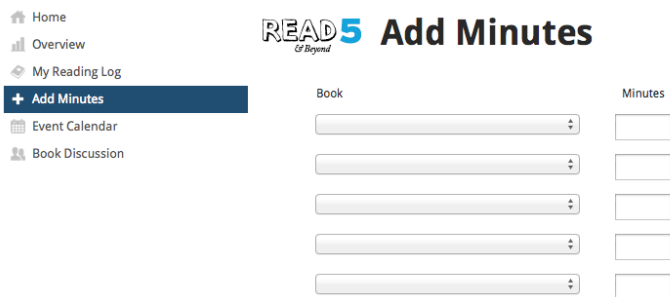

Name _____ User Name _____ Password _____

Once school is over and summer has begun, you will be able to go the District 186 Homepage and find a Read 5 link. Clicking on the link will take you to this page and you will click Login.

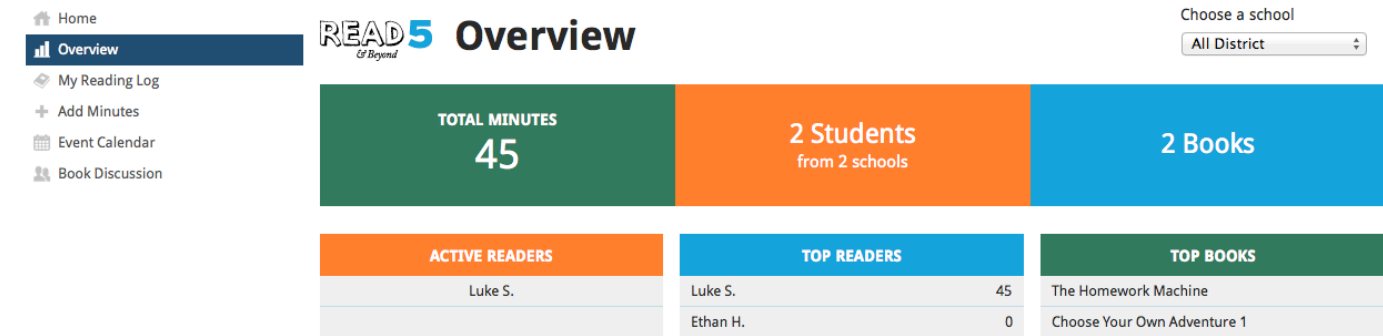

Enter your username and password and click Login.

You will be back at the home page and be able to use the links on the left to enter your reading minutes.
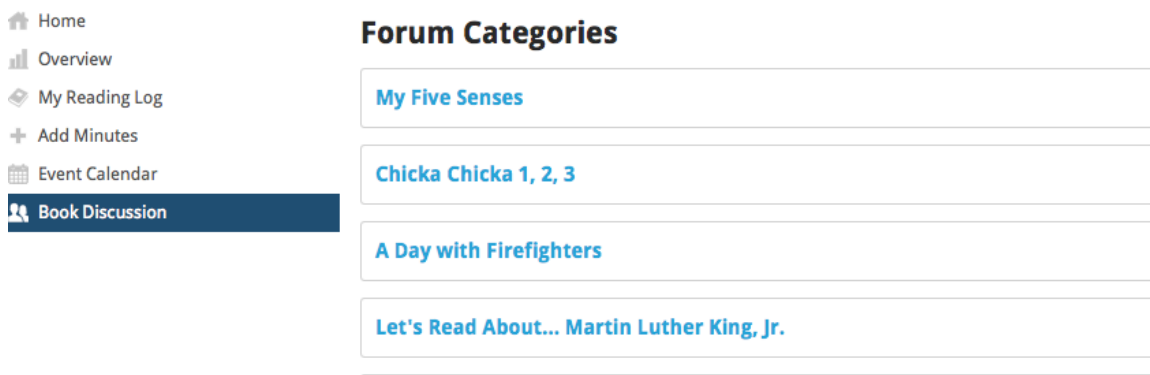

Check to see how many minutes you have read, how many minutes kids at your school have read, and who's been reading the most minutes in your grade!

You can even enter comments about the Read 5 books and see what other people are saying about their books.

Challenge yourself this summer to read often and post your minutes online at Read 5. If you forget your password or can't get online, record your minutes on a Read 5 paper Log.
