

T.G.I.F

(Third Grade Is Fun!)

Contact Me!: class dojo, 217-585-5837

Week of July 26, 2021

Math

This week in math students are learning how to round 2-digit and 3-digit numbers to the nearest ten & hundred. Starting Thursday we will be learning different strategies to add 2-digit and 3-digit numbers.

Reading

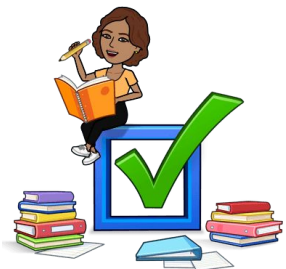

In reading we are learning how to build powerful reading lives. To do this students are learning that they need to find a good reading spot, choose books that they love, set goals for themselves, and choose to read every book as if it is gold!

Writing

In writing, we are learning strategies to come up with true stories. One strategy is to think of a person that matters, list small moments, choose and write!

Vocabulary

Paused
Walked
Crawled
Played
Jumped

A Word From Miss Borders

Please remember to send students to school with extra masks during the day and water bottles as we cannot use the water fountains!
