

# T.G.I.F

## (Third Grade Is Fun!)

Contact Me!: class dojo, 217-585-5837

Week of August 23, 2021

### Math

This week in math we are in Topic 12 which is all about understanding fractions as numbers. Students are learning that fractions are numbers that are EQUAL parts of a whole object or set of objects.

### Reading

In reading we are learning how to make our reading sound great while reading our books. Some strategies that we have learned this week include how to scoop up our words into phrases, match our voices to the characters' feelings, and to read at a just-right-for-you pace.

### Writing

In writing, we have been working hard on our small moment masterpieces! Our focus this week has been how to make our words more detailed and interesting. Ask your student to tell you one thing they can do to make their writing sound more interesting!

### Vocabulary

- Dis- (not)
- disagree
- dislike
- dishonest
- disconnect
- distrust
