

Hello, Ridgely Bulldogs and Sandburg Cardinals!

I am so excited that we get to stay in contact even though I don't get to see your smiling faces! Are you ready for some creative learning!? You may need an adult's help to read! I know I am!

Do you know anything about installation art? Installation art is a type of art that is three dimensional and changes the space where it is created and set up. It is often very **large!** Here are some examples!

See what I mean about large artwork? Look at the size of those people in the picture above! Look at the size of the buildings in the picture on the right!

Here is a short article to read about installation art!

<https://www.pps.org/places/umbrella-sky-project>

One of the characteristics of installation art is that each sculpture is made exactly for the space where it is mounted. Do you have reading to do over the next few days? Of course you do! Take a few minutes and find a couple chairs, pillows, and blankets and make yourself a fort of installation art to read, write, and learn!
