BOOKS THAT GUYS READ

Welcome to the Guys Read Virtual Vault of Good Books. This is the place to come if you're looking for something to get a guy reading. We've collected recommendations from teachers, librarians, booksellers, publishers, parents, and guys themselves. These are the books that guys have said they like. We've gathered and grouped them to make them easier to find. So check out the categories below or type something—a title, an author, or a subject you're interested in—over there on the left.

Important Note: These are not the only good books in the world. Not every guy will love every book here. This is a collection that will grow with every recommendation and rating. So help out. [Suggest a book.](#) Rate a book. Help Guys Read.
