

Student Tips for Entering Middle School

This is what 6th graders say:

“Get organized.”

“Learn how to work the lockers.”

“Try you best and achieve your goals so you can actually get somewhere in life.”

“Find some friends to go along with or something to help you feel confident.”

“Stay organized and turn in all of your homework.”

“Don’t be scared to make new friends at first, most are nice.”

“If there’s one thing I learned it would be good to ignore insults and concentrate on the goal.”

“Get into class on time.”

“Don’t buy the book bag on wheels because it won’t fit in your locker.”

“Don’t be nervous.”

“Making friends won’t be that hard.”

“Try to keep your books in the same order your classes are in.”

“When they give instructions, listen.”
