

## Student Tips for Entering High School

This is what 9<sup>th</sup> graders say:

*The most helpful thing I think was orientation, the tour of the school and all the classes.*

*Get to school on time.*

*Teachers in the hallway - directing you to class when needed.*

*Do your work and pay attention before you go into high school.*

*There are a lot more people, which creates more opportunities for friendships.*

*I would tell them, (8<sup>th</sup> graders) to be prepared to turn in homework the next day.  
No Exceptions!*

*Definitely encourage people to join extra curricular activities.*

*Make some goals to get good grades. Follow your own dreams.*

*Learn how to deal with peer pressure.*

*Stay calm and be yourself. Don't be afraid to get out and meet people.*

*Don't bag your jeans.*

*It's easy for the most part, but make the most of it.*

*Don't get frustrated if you get lost. You'll get to know the school soon enough.*

*The hardest thing is trying to get your grades back up because there's no extra credit.*

*Make time for homework.*

*Be ready for large projects.*
