

How Quizlet works

Quizlet is a free website providing learning tools for students, including flashcards, study and game modes. It was created by high school sophomore [Andrew Sutherland](#) in 2005 and now contains over 40 million study sets. All of the material is user-generated.

CREATE

You start by [creating your own](#) study sets with terms and definitions.

Next, you can add images, copy and paste from another source, or use Quizlet's built-in auto-define feature to speed up the creating process.

FIND

Over 40 million user-generated flashcard sets (and counting)!

Chances are you'll [find something](#) to study.

STUDY

Track your progress with 6 powerful study and game modes!

Flashcards—Review your material, shuffle/randomize, or listen with audio.

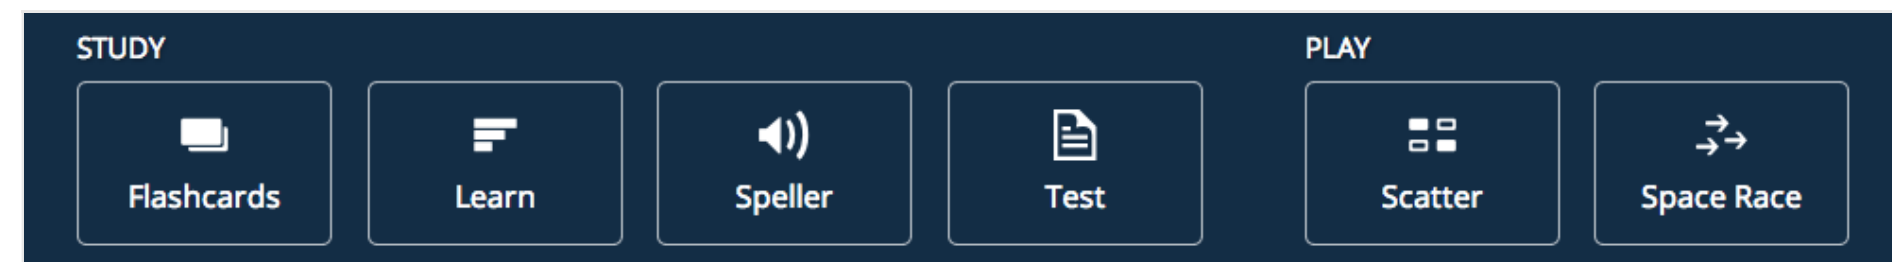

Learn—Track your correct/incorrect answers and retest the ones you've missed.

Speller—Type what you hear in this audio-powered study mode.

Test—Randomly generate tests based on your flashcard set.

Scatter—Race against the clock to drag and match terms/definitions.

Space Race—Type in the answer as terms/definitions scroll across the screen.

AUDIO

Audio is available in [18 languages](#) from English and Spanish to Arabic and Turkish!

Perfect for language study, practicing pronunciation, and learning vocabulary.

MOBILE

Study your material anywhere with mobile apps for [iPhone](#) and [Android](#).

TEACHERS

Make your classroom interactive! Create flashcards for your students and [create a class](#) so your students can study, share, and discuss their material. Learn more on our [Teachers page](#).
